A Look Back

Over 165 Years on the South Shore

When Albert Culver opened in Rockland, Massachusetts in 1860, the South Shore looked quite different. Shoe shops were turning out boots for the Civil War, Quincy granite was shipping up and down the coast, and nearly every home burned coal or wood for heat.

More than 165 years and five generations later, a lot has changed. What hasn't is who we work for. We're still a family business serving our neighbors in the same towns where we started.

Thank you for being part of that history. Here's to keeping the South Shore warm for generations to come.

A NEW ENGLAND FAVORITE: APPLE CRISP

Ingredients:

Apple Filling

- 10 cups apples, peeled, cored, and sliced
- 1 cup white sugar
- 1 tablespoon all-purpose flour
- 1 teaspoon ground cinnamon
- 3 tablespoons water

Topping

- 1 cup quick-cooking oats
- 1 cup all-purpose flour
- 1 cup packed brown sugar
- ¼ teaspoon baking powder
- ¼ teaspoon baking soda
- ½ cup butter, melted

Directions:

Step 1: Preheat the oven to 350°F
Step 2: Place sliced apples in a 9x13-inch baking dish. Mix white sugar, 1 tbs flour, and cinnamon together; sprinkle over apples. Pour water evenly over apples.
Step 3: Combine oats, 1 cup flour, brown sugar, baking powder, and baking soda in a large bowl. Add melted butter and mix with a fork until crumbly; sprinkle evenly over apple mixture.
Step 4: Bake in the preheated oven until the apple filling is bubbling, and the top is golden brown, crisp, and caramelized around the edges, about 45 minutes.
Step 5: Enjoy with a scoop of vanilla ice cream!

A QUARTERLY NEWSLETTER FOR OUR VALUABLE CUSTOMERS
FALL 2026

Dear Valued Customer,

Another New England summer has come and gone, and the days are quickly becoming crisp again. Before the real cold weather arrives, we wanted to check in with you.

Like you, we've watched the price of oil climb this year, and we know it's been hard on a lot of families. Heating is one of the biggest expenses of the winter, and seeing that number rise is stressful.

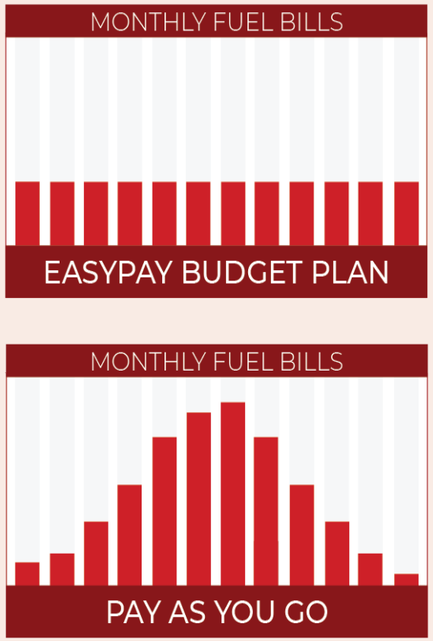

The truth is that it's out of our hands; we'd change it in a heartbeat if we could. Oil is priced on a global market, and events thousands of miles away set the cost before a single gallon reaches our trucks. While we can't control the market, we can help you soften the blow. In this newsletter, we'll discuss our EasyPay Budget Plan, service plans, extended savings on high-efficiency equipment, and a reminder to book your tune-up to help your equipment run more efficiently.

Thank you for reading, and thank you for your business. Keeping your family warm and safe is a responsibility our family has taken seriously since 1860, and we don't take your trust for granted.

Sincerely,
The Albert Culver Team

BUDGET YOUR FUEL COSTS WITH CONFIDENCE

With prices where they are this year, a predictable monthly payment goes a long way. We're pleased to offer our fuel customers a simple way to make budgeting easier:

EASYPAY BUDGET PLAN

- Rather than paying for fuel in a few large winter deliveries, you **spread your total annual cost evenly across 12 monthly payments**.
- We calculate that amount by looking at how much fuel your home has used in past years, weather predictions, and your home preferences.
- Setting it up is easy. Use any major credit card, personal check, or online payment, and we'll handle the rest from there.

Give us a call today to enroll in EasyPay and head into winter knowing exactly what to expect each month. Must be enrolled by 11/30/26.

PEACE OF MIND ALL WINTER WITH A SERVICE PLAN

A service plan keeps your oil-fired system running safely and efficiently, and it keeps repair bills from catching you off guard. Compare our two options and pick the coverage that fits your home.

Call Albert Culver today to enroll and head into winter with your equipment covered.

	RestEasy	Premium RestEasy
Annual heating tune-up	✓	✓
$250 allowance toward a replacement system installed by Albert Culver	✓	✓
24/7 emergency service	✓	✓
Free labor on covered parts	Mon.–Fri. 8 a.m.–4 p.m.	24/7
Covered parts burner motor, oil pump, ignitor, electrodes, couplings, pressuretrol, firomatic, all controls (except outdoor reset), cad cell detectors, draft regulator, smoke pipe, blower motor, oil valve	✓	✓
Also covered non-programmable thermostats, circulators, zone valves, flow checks	✗	✓

UPGRADE YOUR EQUIPMENT *AND BURN LESS FUEL*

An older furnace or boiler wastes fuel with every gallon it burns. A new high-efficiency system gives you the same warmth using less oil.

Albert Culver installs and services all kinds of home comfort equipment, and our PMAA Silver and Gold certified technicians will help you pick the right fit for your home and budget:

- High-efficiency oil heating systems that get more out of every gallon.
- Ductless mini-split systems that cool in the summer and can provide supplemental heat in the winter.
- Central A/C systems to keep you cool next summer.

We know this is a tough year to take on a big project, so we've extended our installation savings offer.

More Time to Save on New Equipment

GET 5% OFF

ALL NEW EQUIPMENT INSTALLATIONS UP TO $500

Includes heating equipment, central A/C systems, and ductless mini-splits

Must call and schedule installation with Albert Culver Company by 3/1/27. Cannot be combined with other offers. Coupon must be mentioned when calling for a no-obligation estimate.

ENERGY KINETICS®

SCHEDULE YOUR ANNUAL FALL TUNE-UP

A dirty burner or a system that's out of adjustment burns more fuel for the same amount of heat. A tune-up cleans and calibrates your equipment, so it runs at peak efficiency, it catches small problems before they turn into costly breakdowns, and extends the overall lifespan of your equipment.

Service plan customers get their tune-up at no extra cost. **Call our office today to book an appointment before the pre-winter rush hits.**
